Max clearing width	32 cm
Max throw distance	8 m
Unit weight	5.2 / 5.8 kg

OEM / ODM available: your brand, packaging and specification.
Certification and test reports issued per order.

VERDE EDGE

OEM & ODM

Private label: housing colour, logo, packaging and manuals

Platform extension: new tools built onto your existing battery system

Certification handled on our side for the target market

Tooling, moulds and samples managed in-house

MOQ and FOB pricing quoted against your specification

Typical programme

1. Your target spec and price point
2. Sample against that spec
3. Packaging and artwork
4. Certification for the destination market
5. Pilot order, then volume

Timelines and MOQ depend on the category and how much tooling changes.

VERDE EDGE

Send us your specification

Tell us the category, target price and destination market —
we will reply with a catalogue and FOB reference prices.
